

## **Alder BioPharmaceuticals to Present at Jefferies 2015 Global Healthcare Conference**

**BOTHELL, Wash., May 28, 2015** – Alder BioPharmaceuticals, Inc. (“Alder”) (NASDAQ: ALDR), a clinical-stage biopharmaceutical company developing monoclonal antibody therapeutics for the treatment of migraine, Cushing’s disease and autoimmune and inflammatory diseases, today announced that Randall C. Schatzman, Ph.D., President and Chief Executive Officer, will present at the Jefferies 2015 Healthcare Conference on Thursday, June 4, 2015, at 1:00 p.m. EDT in New York.

A live audio webcast of the discussion can be accessed from the Investors section of the Alder website at <http://www.alderbio.com>. An archived replay of the webcast will be available on Alder’s website for 30 days after the live event concludes.

### **About Alder BioPharmaceuticals**

Alder BioPharmaceuticals, Inc. is a clinical-stage biopharmaceutical company that discovers, develops and seeks to commercialize therapeutic antibodies with the potential to meaningfully transform current treatment paradigms. Alder’s lead clinical candidate, ALD403, inhibits a well-validated molecule shown to trigger migraine attacks, calcitonin gene-related peptide (CGRP), and is currently undergoing Phase 2b clinical testing for the treatment of chronic migraines. Alder plans to initiate additional advanced clinical studies for ALD403 in frequent episodic and chronic migraines in the second half of 2015. Alder’s second program, ALD1613, which targets adrenocorticotrophic hormone (ACTH) is undergoing Investigational New Drug (IND)-enabling preclinical studies with the initiation of clinical studies in Cushing’s disease planned for 2016. Finally, clazakizumab, previously known as ALD518, is designed to block the pro-inflammatory cytokine IL-6 and has completed a Phase 2b clinical trial. For more information, please visit <http://www.alderbio.com>.

### **Forward-Looking Statements**

This press release contains forward-looking statements, including statements regarding the further development of ALD403 and ALD1613, our expectations for the initiation of future clinical trials and studies, availability of clinical trial data, patient enrollment and the potential of ALD403, ALD1613 and clazakizumab to address the unmet medical needs of patients. All forward-looking statements included in this press release are based on our management’s beliefs and assumptions and on information currently available to our management, and we assume no obligation to update any such forward-looking statements. Any or all of our forward-looking statements in this press release may turn out to be wrong and actual events or results may differ materially. Our forward-looking statements can be affected by inaccurate assumptions we might make or by known or unknown risks, uncertainties and other factors. In evaluating these statements, you should specifically consider various factors, including the risks outlined under the caption “Risk Factors” set forth in our Quarterly Report on Form 10-Q for the

quarter ended March 31, 2015, which was filed with the Securities and Exchange Commission (SEC) on May 7, 2015, and is available on the SEC's website at [www.sec.gov](http://www.sec.gov). Additional information will also be set forth in our other reports and filings we will make with the SEC from time to time. We caution investors that our business and financial performance are subject to substantial risks and uncertainties.
